SWITCHLITE EASYREMOTE
Basic programming tool
Art. no. 96627665

Application

The Switchlite Easyremote is a compact infrared remote control used for the basic control of IR enabled Sensalite products. The control is done remotely and therefore can be operated from the ground (7m is the IR range).

Functional description

Depending on the product that has to be controlled, the Switchlite Easyremote can be used to

• Selecting scenes

• Raising and lowering the scene light levels.

• Turning the lights on or off.
  Refer the individual device's Installation Instruction for control options.
