

## Flexity columns

### A range of 3, 4, 5m poles with three different designs: Cylindro-conical, Stepped, Cylindrical with upper shaft

- To be used with pole-top luminaires or pole top accessories
- The top of poles is with step, for a flush effect luminaire-pole
- It is recommended that suitability for location and installed load is always checked regarding the weight / windage capabilities of the column
- Other heights possible on request

*Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.*

### Material/Finish

Hot dip galvanised steel or aluminium. High quality powder-coating. Static strength in accordance with EN40.

### Installation/Mounting

All variants are flange plated columns. Top pole: 60mm with step. It is recommended that suitability for location and installed load is always checked regarding the weight / windage capabilities of the column.

General compatibility with the following luminaire ranges: Civiteq, EP145/EP145 LED, EP445, Flexity, Flow, Gamma LED, Isaro/Isaro PRO, Plurio/Plurio LED, Thor, Urba Deco, Volupto.

It is recommended to check the final compatibility with our local customer service.

Compatibility may vary depending of pole heights, versions and accessories.

Compatibility may vary depending on luminaire version.

Compatibility may vary depending on installation site and location.
