

**Thorn adds to Tonic range with recessed and Gimbal versions**

*The new spotlights complete the global Tonic range and bring the right lighting to retail applications and projects where a high flexibility is needed.*

London, November 2017 - [Tonic recessed](#) and [Tonic Gimbal](#) expand the choice of mounting options for Tonic, while sharing the same tubular appearance and great light quality as the existing Spot. The addition of the recessed and gimbal-mounted versions creates a comprehensive, consistent family of spotlights, making it easier for designer and specifiers to create powerful, cost-effective lighting in retail settings. Especially for retail applications, quality of light is everything, so Tonic's colour-rendering index (CRI) of 90+ makes it an ideal choice.

Tonic's recessed mounting keeps ceilings uncluttered, while its interchangeable lenses offer a variety of beam shapes, giving lighting designers maximum flexibility. For both Tonic recessed and Tonic Gimbal, beams ranging from a tight 15° to a very wide 60° are available, while light heads can rotate 355° and tilt 75° (only for recessed / Gimbal 355° and tilt 30°). Tonic recessed is available in single, double and triple versions, with lumen packages of 1800 lm and 2800 lm and colour temperatures of 3000K and 4000K. Tonic's CRI of over 90 reflects the high colour quality. But while some light sources favour warm hues at the expense of bright whites – or vice versa – Tonic's LED light source has been fine-tuned to combine pure, clean whites with intense, saturated colours. So whatever is in fashion, Tonic will make sure it looks its very best.

Tonic Gimbal comes with a choice of single, double and triple frames, and interchangeable light heads including spot and flood beams for even more flexibility. Thorn's Tonic products are globally certified and supplied with an integrated multi-voltage driver, so they're ready to be specified anywhere in the world, and installation is simple, thanks to Thorn's "flag" system, which ensures a secure connection to the ceiling with no slipping.

Sven Scharfe, Global Product Manager said: “Tonic combines high colour quality with cost-effectiveness, so there’s no need for retailers to compromise on colour in order to get the benefits of LED. With the introduction of recessed and gimbal versions, the Tonic family now represents a comprehensive range, which is globally certified. Retail clients can now source products for multi-country rollouts from just one supplier, with a minimal number of SKUs.”

#### **Facts and figures – Tonic**

- Luminous flux: 1800 lm and 2 800 lm
- Luminaire efficiency: Up to 90 lm/W
- Colour temperature: 3 000 K and 4 000 K
- Colour rendering: >90 vital white spectrum
- Beam angles: SP/FL/WFL/VFL
- Controls: Switchable
- lifetime of 50 000 h L80

## **About Thorn**

Thorn Lighting is a renowned global manufacturer of indoor and outdoor luminaires with integrated controls. Our mission is to give people throughout the world access to great lighting. Our high performance lighting solutions can be found in many different applications such as sport, road, tunnel, cityscape, office, education or industry.

Founded in 1928, we have years of experience in providing lighting solutions. Leveraging our research and development facilities, we actively work to promote the correct lighting standards and are uniquely placed to combine the latest lighting technology with our specialist expertise in lighting development. We focus on digitally-integrated, sustainable solutions through the latest lighting controls technology. Our aim is to exceed the requirements of customers all over the world to become the trusted, reliable, professional long-term partner for cost-effective lighting.

We offer energy savings without compromising performance, efficiency and comfort. To achieve a lighting solution where aesthetics, optical performance and energy consumption are all in perfect balance is at the core of what we do. Our lighting solutions are easy to specify, install and maintain. Thorn is part of the Zumtobel Group.
